

Directions For my snowman

Student 4B

By: Sarah

1. The first thing you want to do is fill in the background. It is the purplish color in the very bottom left corner. The number should be #9900ff.
2. Next, make one 6 cm. (white) ball, one 4 ½cm(white) ball, and make one more (white) ball which should be 2 ½ cm. After that, you want to stack them (largest one at the bottom and smallest one at the top.) Make sure to stack them in the middle of the screen.
3. Then, you need to make arms. First you need to get brown and then you need to make sure your line size is 21. After that, you will draw a 1 ½ in. brown line from slightly the outside of the middle snowball. (The line should be coming from the middle of the outside edge of the middle snowball.) Do that on both sides of the middle snowball to make arms. Then, you need to draw fingers. Go to the end of the brown line and make about a ¾ of an in. line.(Do 2 on each arm. One finger should be coming from the left of the arm and one finger should be coming from the right of the arm.)
4. After that, you need to make the buttons. Just go to stamps and choose the heart. Then you need to make them the same color as the background (the color in the left corner. #9900ff) Make the size 2. Then, stamp one right in the center of the middle snowball. Next, make one just above the middle one and one more below the middle one on the middle snowball.
5. Next, you will need to make the snowman's scarf. First, you need to click on the square. Then, make a rectangle about 1 in. horizontal and ½ cm. vertically. Then, you need to make another rectangle. It should be 1 cm. horizontally and 1 in. vertically. Fill it in lime green (#33ff00.) The first rectangle you made should be black. Next, put the horizontal rectangle BARELY below the top snowball. Next, put the black rectangle on the bottom right side of the green rectangle but make sure you can still see the green.
6. After that, make the hat. You will need to go to the square and make a square that is 2 cm. vertical and make it ¾ of an in. horizontal. Next make another rectangle. It should be ½ cm. vertically and 3 ½ cm. horizontally. Fill both rectangles in black. After that you will need to put the big rectangle on the top of the smallest snowball's head. Then, put the small rectangle below the other rectangle. (Fill both of those rectangles in black.)Next, make another rectangle. It should be 1/8 of an in. vertically and 2 cm. long.(horizontally) fill it in with the yellowish color on the far right side of the color panel. (#ffff00) Then ,place it just above the little rectangle.(It should be like a band.)

7. After that, you need to make the face. Go to the stamps and choose the smiley-face. Then make it size 4. Make it black. After that, make the nose. All you need to do is pick out an orange color and then make a LITTLE line. It should be about $\frac{1}{2}$ cm. long. Put it right in the middle of the snowman's face.
8. When you are done with that, you need to make snow on the ground and snow falling from the sky. You need to go to the pencil and choose the color white. Then, make the line size about 57. After that, make a line on the very bottom of the screen. It should be a straight line. Next, make the snow falling from the sky. Keep the same color and line size and color just make 8 dots. One should be about 1 in. to the side of the snowman. (one on the right and one on the left of the middle of the bottom snowman.) Next, make 6 more dots. There should be 4 lining the top of the screen about 1 in. from the top. One in the left corner one in the right corner one to the left of the one in the right corner and one to the left of the one in the left corner. After that, make one just to the left of the arm on the left side. And one on the right of the arm on the right side.

The End
